

QUADRASAN®

Automatic effective hygiene maintenance & odour control system for urinals & toilets

The Quadrasan® I.P.E.™ system delivers effective programmed maintenance for urinal and W.C.

- This system provides continuous programmable maintenance ensuring W.C. & Urinal fixtures remain clean, sanitized and odour free
- Quadrasan system works on same Micro Aroma setting
- Operates on 2 'C' cell Alkaline Batteries
- Non-return valve for compatibility with pressurised systems
- Refills available in 310 ml / 600 ml with chemical and biological formats
- 99.9% bacteria / germ kill
- Leaves a slippery surface on the bowl, urinal & in drains which makes it difficult for waste matter to stick
- Labour saving & economical
- One dispenser can be connected to one urinal / flush tank
- 10 years guarantee against defects in parts and workmanship
